Job Description

Check and Advise In Op Turn Signals

Drove over to customer yard and locate truck. Picked up truck and drove back to shop for customer requested repairs. Customer states in op turn signals. Checked and confirmed customer complaint. Checked fuse/relays. Found blown electronic flasher unit. Replaced flasher unit and flasher blew out again. Checked harness/connections, found bare copper wires rubbing. Repaired and secured connections and installed new flasher unit. Function tested all lights for proper operation. Okay. Drove unit back to customer location and returned back to service.

Line Total	559.30
